

# Portable Cordage Attributes Chart

**E** = Thermoplastic Elastomer  
**H** = Heater Cord  
**S** = Service (600V)  
**J** = Junior (300V)  
**V** = Vacuum Cleaner Cord

**P** = Parallel Cord  
**O** = Oil Resistant \*  
**T** = Tinsel Cord (If First Letter)  
**T** = Thermoplastic (After First Letter)  
**W** = Weather Resistant

\* Single "O" means jacket is oil resistant; double "O" means jacket and conductor insulation are oil resistant
