

Your Trusted Distribution Partner in Wire, Cable, and Connectivity

ABOUT US

LAPP Tannehill is a leading distributor of wire, cable, and connectivity solutions. As an operating affiliate of LAPP, a global manufacturer of cable and connection solutions, we are committed to building strong partnerships with our customers and extensive network of suppliers. Our mission is to provide forward-thinking solutions and alternative products, while leveraging our value-added services.

Scan QR code with your phone to see why you should choose us over other distributors!

100M+ PRODUCTS FROM STRATEGIC PARTNERSHIPS WITH LEADING MANUFACTURERS

INDUSTRIES WE PROUDLY SERVE

INDUSTRIAL

FOOD & BEV

MANUFACTURERS / SUPPLIERS

Wire, cable, & tubing (e.g. EcoGen™ eco-friendly hook-up wire & control cable, Xtra-Guard® premium cable, FIT® shrink tubing, accessories)

Portable cordage, hook-up wire, multi-conductor, power, industrial, data, instrumentation, flexible, & mining cable

Cables for power grids; oil & gas, telecoms, construction & infrastructures, transportation & mobility

Customized cables & assemblies for automotive - EVs, hybrids, & other connected autonomous vehicles (e.g. high voltage, FlexRay, CAN bus, ethernet, LVDS)

Heat shrink tubing & identification products for commercial use & high-end military / aerospace customers

Specialty & custom cable products for data communications, instrumentation, robotics, broadcast/studio, computer, utility, shipboard, factory automation

High performance wire & cable serving automotive, EV/HEV, commercial vehicle, electric motor & transformer, military, data comm.

High temp PTFE wire & cable for aerospace, military & defense, T&M, medical, & industrial (e.g. specialty & filtered connectors, cable assemblies, complex harnesses)

PTFE wire & cable for aerospace (military & commercial), commercial electronics, medical, automotive, appliances

Cable protection systems (e.g. conduit, connectors, cable glands, cable accessories, custom electrical assemblies)

CCTV/security connectors & adaptors, low voltage, fire alarm cable, coaxial, fire alarm, security, communication & control, water resistant cable

Original equipment, powertrain components, & system protection for automotive (e.g. light vehicle, commercial truck, off-highway, industrial, motorsport, aftermarket)

High temp & high performance wire & cable for military, aerospace, commercial, industrial (e.g. data, coaxial, mil-spec)

General purpose & specialty braided sleeving products for biomedical & aerospace to wire, hose, & cable bundling protection for high performance automotive enthusiasts

Copper/aluminum wire & cable (e.g. power & control, flexible cordage, welding, stage lighting, underground service entrance, submersible pump, mining, high voltage)

Copper fabricated & insulated wire and cable products for OEM, appliance, automotive, recreational vehicles

Mil-spec, UL & CSA hook-up wire, AWM, PVC/nylon wire, automotive, battery cable, building wire, flexible cord, MTW, parallel bonded, TFN

Wire & cable solutions specializing in instrumentation, tray, thermocouple, hvac, fire alarm, broadcast, communication, utility, & custom

Networking cable, category cable, home automation, coaxial cable, aluminum service drop, control cables

Custom cable, plenum & non-plenum cable, coaxial & twinaxial cable, motor control cable, VFD flex cable, ethernet cable, telecommunications cable

Stranded data cable, harsh environment ethernet, & multi-conductor electronic constructions for industrial applications

Battery cable, booster cable, welding cable, automotive wire, trailer cable, ABS cable

Electrical insulation & environmental protection; acrylic & silicone rubber coated sleeveings, twisted & plied yarns, expandable monofilament sleeveings, overbraiding

High performance & industrial-grade products including welding cable, battery cable, cordage, automotive cable

+ MORE MANUFACTURERS

LAPP products are proven to stand up to the most extreme conditions found in today's industrial environments - vibration, temperature, oil, water, corrosion, and more.

ÖLFLEX®
Power and control cables

UNITRONIC®
Data communication systems

ETHERLINE®
Data communication systems for ETHERNET technology

HITRONIC®
Optical transmission systems

SKINTOP®
Cable glands

EPIC®
Industrial connectors

FLEXIMARK®
Marking systems

SILVYN®
Protective cable conduit systems and cable carrier systems
