

LAPP TANNEHILL PORTAL

YOUR PERSONAL ACCOUNT ACCESS 24/7

LAPP Tannehill's Customer Portal is an online account management tool that allows current customers access to their account information, orders, pricing, products, and more. It is fully integrated with our customer accounts.

How is the Portal different from the LAPP Tannehill website?

The LAPP Tannehill website is a general eCommerce site that is not integrated with our customer accounts. It is focused on product and technical information. You can only order on this site with a credit card. It's a great resource when you're looking for product specification and general technical information.

The Portal is an account management tool, where you have complete access to your account and can manage your quotes, orders, invoices, and more. You can also order products on your account terms or a credit card.

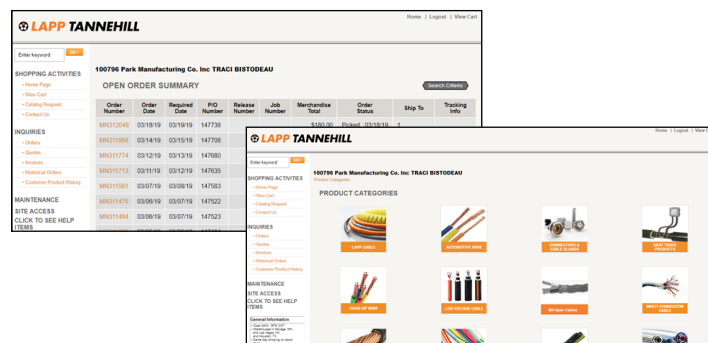

FIND THE INFORMATION YOU NEED, WHEN YOU NEED IT

Complete Access: From Reviewing Quotes to Placing Orders, Shipping to Invoicing

- Place orders 24/7 on your time with account terms or credit card
- Easily convert a quote to an order
- Email a copy of a quote or order acknowledgement
- View quotes, open orders, and order status
- View invoices, and print or email a copy to yourself
- Filter by Dates, PO#, Order#, Ship-to address, along with custom sorting
- Track shipments with direct links to tracking information on numerous carriers

Easily Find Products You've Purchased, Search for New Products, & Get Product Data

- Search for products by your own part number
- Mark items as your favorite to quickly view later
- Enter part number to view all of your purchases for that specific part
